

## SALTSTICK

The SaltStick total electrolyte replacement system is comprised of capsules and two dispenser sizes. The SaltStick (5-7 capsules) and SaltStick mini (3-4 capsules) protect and dispense supplement capsules from inside various road or MTB bars. They also can be attached externally to bicycles and running belts. SaltStick Caps provide a balanced and buffered source of electrolytes in a vegetarian-based capsule. Each bottle contains 100 capsules. SaltStick dispensers are compatible with common supplement capsules and feature a water-resistant septum to keep supplements clean and dry. **Suggested retail: \$17.95-\$23.95**
