

❖ SaltStick™ Electrolyte Dispensers and Capsules

New worldwide for 2006 is the SaltStick™ total electrolyte replacement system comprised of capsules and two dispenser sizes. The novelty of the SaltStick™ (5-7 capsules) and SaltStick™ mini (3-4 capsules) is to protect and dispense supplement capsules from inside various bicycle bars (Aerobars, MTB, road) or attached externally to bicycles and to running belts.

SaltStick™ Caps have been scientifically formulated to provide a balanced and buffered source of electrolytes (each capsule contains 215 milligrams of sodium, 63 milligrams of potassium, 11 milligrams of magnesium and 22 milligrams of calcium) in a vegetarian-based capsule with 100 servings (100 capsules) in a bottle. SaltStick™ dispensers are compatible with all common supplement capsules and feature a water-resistant septum to keep your supplements clean, dry and off the road. *SaltStick™ products are priced at \$17.95-\$23.95 and are available at www.saltstick.com.*
