

***For Immediate Release:***

**Statement regarding SaltStick<sup>®</sup> Caps and production in a cGMP facility:**

Newbury Park, CA – February 14th, 2008 – SaltStick<sup>®</sup> Caps, since the autumn of 2006, have been produced in the USA from pharmaceutical-grade starting materials in a cGMP (current Good Manufacturing Practices) facility, certified by the Natural Products Association . Between each production run, machines in this contract lab are cleaned based on cGMP compliant cleaning procedures, as well as all other handling steps. With the livelihood and reputation of our pro and age-group athletes at stake, Toker Engineering LLC has put in place all reasonable controls and measures to ensure a quality product that contains exactly the contents stated on the label. We take great pride in our highly-tested athletes winning races worldwide and our intention to continue to provide products free of banned substances is of utmost importance.
