

## 1 The North Face Ultra Endurus

Fatigued feet after long adventures will find comfort in the XtraFoam midsole that is designed to endure greater distances while maintaining a soft under-foot feel. A Vibram outsole delivers plenty of grip regardless of conditions at the race, while an ESS Snake Plate keeps your feet protected from stone bruising!

## 2 Features elite light cushion

Not all socks are created equal, and in long-distance running events, they can quite often be the difference between having a good or very bad day! These socks keep your feet dryer, cooler and more comfortable over any distance. An absolute essential for UTA.

## 3 Body glide original anti-chafe

Chafe is a quick way to ruin your race. Feeling dry to the touch, Bloody Glide creates an 'invisible' layer on top of your skin against friction and moisture.

## 4 Black diamond distance fiz poles

Like a good adventure partner, these adjustable running poles are strong when you aren't, supportive when you're struggling and easily adjustable when the terrain calls for adaptability.

## 5 Tailwind nutrition endurance fuel

Created to be easy on the stomach while on the run, Tailwind Endurance Fuel Drink uses a simple and complete formula to replenish your body. A combination of simple carbohydrates (dextrose and sucrose) are rapidly converted into energy, giving you the electrolytes and calories you need to push ahead.

## 7 Saltstick salt caps

SaltStick Capsules have been formulated to resemble the electrolyte profile lost during activity including sodium, potassium, calcium and magnesium. SaltStick capsules will therefore minimise muscle cramping, heat stress and fatigue.
